

# The Assembly Rooms Trust Dedham

## Environmental Policy

The Trust recognises that all activities, products and services within the defined scope of our environmental management system can cause impacts on the environment. The Trust is committed to operating its business responsibly; we will comply with applicable legal requirements which relate to our business and will do all we can to prevent pollution of any kind.

We will take all reasonable and practicable steps to meet and improve environmental performance by:

- Regularly assessing the environmental impacts of our activities
- Minimising the production of waste
- Minimising material wastage
- Minimising energy wastage
- Actively promote energy saving products and schemes
- Promoting the use of recyclable and renewable materials
- Controlling noise emissions

Formally adopted by Trustees on 7<sup>th</sup> December 2020

Review due July 2023
